Exploring Towns & Castles

In towns and castles you can gather information, buy weapons and armor, and make all the preparations necessary to set out on the hard road to adventure. Preparing yourself well here is the key to survival.

The Quest For Knowledge

The first step on any adventure is to seek out clues and information. Talk to people, look in pots, chests of drawers and other places (by using the **A** Button), and do whatever else you can to find the vital tidbits you need.

— Another Point of View

Whilst in towns, castles, towers and other such locations, you can use the **L** and **R** Buttons to rotate your viewpoint and find doors, treasure chests and other things that you might otherwise have missed.

Useful Establishments

There are plenty of places to visit that can be of great help to you on your travels. Be sure to drop in on all of them whenever you arrive in a new town.

— Bank

You can deposit and withdraw money from the bank in units of 1,000 gold coins. Money stored in the bank is not lost when you are wiped out by monsters, so it's best to put any spare cash you have in the bank for safe-keeping.

DIFFERENCES BETWEEN DAY AND NIGHT

When in the field (anywhere outside town), time passes as you travel around, until eventually night draws in. Different enemies will come out to play at night-time, and most shops and other businesses will close their doors to customers. Time does not pass while you are in town, but you can always go to an inn and sleep until morning comes around.

Commencing Your Quest

Once you set foot outside town, you'll be out in the field, with the whole world stretching off in all directions for you to explore. You can make your way across this world on foot, or by using other forms of transport, such as wagons or ships.

Walking the Wide World

Use the world map on the top screen to guide you as you travel through fields, towns, castles, caves, and other places of interest. The areas you travel through will become gradually colored in on the world map. Towns, castles, and other locations will be marked by a red spot once you have visited them. If you encounter enemies while traveling through the field, a battle will begin (see pages 32-37).

Zooming in on the Map

Pressing the Y Button gives you an enlarged view of the world map on the top screen.

Types of Terrain

You can travel about on land by foot or in a wagon, but to travel on the sea, you will need a ship.

On Land				On Sea
Grassland ●	Scrub ●	Forest ●	Desert ●	Open Sea ●
Hills ●	Bridges ●	Poisonous Marshland ★	Mountains ✕	Reefs ✕

● Traversable ★ Traversable, but inflicts damage ✕ Impassable

Towns, Castles & Other Places of Interest

You will find all manner of interesting places dotted around the world. If you happen across one, be sure to pay a quick visit.

Caves & Towers

Caves and towers are packed with terrifying enemies just waiting to pounce. You'll have to leave your wagon outside the smaller ones, but some larger ones have enough room for a wagon to fit through the entrance.

Modes of Transport

Once you lay your hands on a new form of transport, you might find you are able to reach areas you couldn't get to before.

☞ Taking Off & Landing the Balloon

Once you have the balloon, you can fly as freely as a bird without the risk of bumping into any pesky enemies. You can press the A Button to take off and land, but you will only be able to set the balloon down on terrain that you can walk on.

On the Wagon

The wagon allows you to travel with up to ten companions, up to four of whom can battle outside the wagon. Your battle party can be swapped in and out any time the wagon appears on screen.

☞ Field Formation

The party members traveling outside the wagon will be arranged as they are in the screenshot to the right. The closer the character is to the party leader's position, the higher their chance is to get attacked more often in battle.

This is how the party is arranged when they travel around in the field.

☞ Changing Equipment & Managing Items

Characters are free to change their equipment and handle items whether they are inside or outside the wagon.

☞ When in Town

You can't take the wagon with you into castles or towns, but characters left in the wagon can still buy, sell, use, and manage items, as well as cast spells.

☞ When in Caves & Towers

When the wagon doesn't have access to a certain cave or tower, only the four party members traveling outside the wagon can enter. You cannot use items or spells of the characters left inside the wagon.

Only characters inside the
dungeon can use spells.

☞ When All the Characters Outside the Wagon are Wiped Out

If all the characters outside the wagon are wiped out, party members from inside the wagon will jump into battle to help their companions in their time of need.

☞ Gaining Experience

When traveling across terrain, which the wagon can pass through, characters inside the wagon will gain experience from battles even if they don't take part.

Tactics

This command allows you to dictate how your party members act in battle. When you wish to change the whole party's tactics at once, select the wagon icon. When you want to change a single party member's orders, select that character's icon.

* The "Tactics" command appears from Chapter 5 onwards.

Show No Mercy	Defeats the enemy as quickly as possible, regardless of MP consumption.
Fight Wisely	Pays equal consideration to both attack and defense. Sometimes casts spells, depending on the situation.
Watch My Back	Forgo attacking entirely to concentrate on protecting the hero with healing and support spells.
Don't Use Magic	Fights without casting spells.
Focus On Healing	Keeps a close eye on teammates' HP, and heals them as quickly as possible.
Follow Orders	Allows you, the hero, to directly command a character.

Party

This command becomes available once you get the wagon. Allows you to swap members between the wagon and the battle party.

Change One

Swap a single party member from the battle with one in the wagon.

Choose the character you wish to remove from battle...

Status Window

...and pick the one who'll replace them.

Change All

Swap the entire party out of battle. The new party will be arranged in the order you pick them.

Flee

This command lets you escape from a battle. You won't always be able to run away, and a failed attempt to flee will result in the enemy getting a free hit on you, so don't rely on it blindly.

WATCH YOUR STATUS

Some special attacks can result in a character's status being affected. Status abnormalities have all kinds of negative effects, including making a character unable to act, so you should always try to remove them as quickly as possible.

♦ Examples of Status Abnormalities

Sleep	Character is unable to act until they wake up.
Poison	Character takes damage as they travel around the field.
Paralysis	Character becomes transfixed, and is unable to move or act.
Confusion	Character acts wildly and unpredictably, even attacking members of their own party.

Concluding Combat

When all enemies have been defeated, the battle ends, and the party receives experience, gold and sometimes even items. When a character's experience reaches a certain point, their level will increase.

WHEN YOU GET WIPED OUT

If everyone in your party is defeated, and you are completely wiped out, you will be revived at the last place you made a confession (saved your game). The amount of gold you are carrying will be halved, but you won't lose any items or experience you've earned.

The Downside of Death

- ♦ Only a single member of your party will be revived. You'll have to bring everyone else back to life either in a church or with magic.
- ♦ You lose half of the money you were carrying.

Fun & Games

It's not just about pitting yourself against horrible monsters you know, sometimes you have to take a detour and let your hair down too.

Here are some of the distractions you can find:

Amass a Mountain of Mini Medals!

If you can find the whereabouts of King Minikin, you'll be able to exchange the mini medals you find dotted around the world for a host of rare items and weapons.

Cash in at the Casino!

Exchange your gold coins for casino tokens to gamble on slot machines, poker or monster fights. Once you have enough tokens, you can trade them in to receive all kinds of items at the exchange counter.

Build a Bustling Boom Town!

By using DS Wireless Communications to welcome pioneers met through chance encounters, you can take a tiny town and watch it grow into a megalopolis! First you'll have to find where in the world this pioneer town is, and then things can really get growing. Who knows, if the place gets big enough, you might even get some shops selling really rare items...

☞ Pick a Plucky Pioneer

Speak to Hank Hoffman Jr., who can be found near the town, to choose your intrepid envoy.

* The name of your pioneer and the message you send out with them will be seen by lots of people, so don't give out any information you wouldn't want strangers to see, or use any words that others might find unpleasant.

☞ Proceed with the Pioneering

Speak to Hank Hoffman Jr. and select "Chance Encounter" to begin sending out your pioneer. If players who also have their DS systems in Chance Encounter mode happen to be nearby, you will exchange pioneers, bringing new citizens to both your towns. When you wish to come out of Chance Encounter mode, just press the A Button.

- * Your DS system will continue communicating with others even when closed.
- * Please do not switch off your DS system or remove the Game Card while in Chance Encounter mode.
- * Chance Encounter mode consumes battery power rapidly, so be careful. If the battery runs out while you are playing (including when you are in Sleep Mode), you will have to continue your adventure from the last place you saved.

Tips for Travelers

All manner of trials and tribulations await you on your quest, but here are some handy hints to help you if you ever get stuck.

Save & Save Again

It's always frustrating when you're unexpectedly wiped out or your battery dies on you, forcing you to replay a whole chunk of the game. Be sure to save frequently to avoid this from happening.

Be Sure to Save in These Situations:

- ◆ When entering a new town or castle.
- ◆ Before setting off to a cave or tower.
- ◆ When you have just gone up in level or found a rare item.

Focus on Your Friends' Formation

The closer a character is to the party leader's position, the higher their chance is to get attacked more often during battle. When changing your formation by selecting "Line-Up" from the "Misc." submenu, be sure to put characters with high HP, such as Ragnar and the hero, at the forefront of the action.

Don't Overstretch Yourself

Traveling too far when you're still wet behind the ears can be a very dangerous pastime. If you're having trouble with tough enemies, try fighting close to town to build up your levels, and don't take unnecessary risks. Just because you think you're okay, that doesn't mean an enemy won't have a nasty trick up its sleeve to wipe you out when you least expect it...

Tactics Can Turn the Tide

If you set a party member's battle tactics (see page 34) to anything except "Follow Orders", they will fight automatically according to the tactic you choose. When leveling up near towns and castles, you might find it easiest to select "Show No Mercy", and let your team do the fighting for you as quickly and efficiently as possible.
